BODY ATTACHED.  
Former Conductor Burt Rock Required  
to Pay \$2,000 Damages by Aggrieved  
Wife.

Burt Rock, who recently left St. Joseph's hospital after undergoing an operation, was served with papers Thursday attaching his body by Constable W. J. Hastings. It was said that Mr. Rock, the constable and other interested parties were in New London on Friday and that the case is to be satisfactorily adjusted. The papers in the case were made out through the office of T. J. Chapin of Hartford and they allege fraud and damages aggregating \$2,000 are asked by the complainant, Fanny Betley. It is alleged that she went through the form of a marriage with Rock back in 1902 in Willimantic and that they resided together until 1909, when he left her in Palmer, Mass. She has not known of his whereabouts since that date until recently, learning that he was in the local hospital, she caused the papers to be served upon him. Rock was formerly a conductor on the Central Vermont railway and is well known all along the line to Palmer, Mass., and farther north.

LIGHTS POOR.  
General Complaints of Unsatisfactory Service.

During the past few months there has been considerable trouble and inconvenience caused by the lights on the various street circuits going out at various times. The police have reported many lights out and in several instances have reported the same light out four or five times. According to the old contract, and as far as can be learned there has been no change, when a light was reported out on a second occasion it was changed. By making this change in the light a higher degree of efficiency was maintained and less lights were consequently reported out.

The difficulty over lights going out is not new by any means. It is a more prevalent during the past few months. Citizens have entered many complaints and the taxpayers feel that they are not being given the service for which they are paying. The lighting bill for the city runs between \$800 and \$900 per month and the citizens should be given their money's worth. Thursday night the street lights were out 27 hours, which is quite a long time in the aggregate, although amounting to only about ten minutes per light.

At present the city has something like 18 are lights scattered about its streets, which is by far a much larger number than in most cities of the size of Willimantic. The people want light, are paying good money for light, and should be given the best possible service.

### CEMETERY PLANS

Discussed at Friday's Meeting—Proposed Wall to Wait.

Friday afternoon at 2:30 o'clock the board of selectmen, the cemetery committee and Civil Engineer R. E. Mitchell met in the rooms of the board in the town building and discussed the new cemetery in its various phases. It was the intention of the selectmen to have a bank wall built in front of the new cemetery on West Main street and the work was to be started at once. Plans for the wall have been made by Civil Engineer R. E. Mitchell.

The cemetery committee made the suggestion to the board that it would be more practical at present to have the cemetery laid off into streets and the land plotted for lots so that purchasers could have their choice.

It is great need at present for more cemetery lots, as but few remain available in the old cemetery. Ex-Mayor D. C. Barrows, who is a member of the cemetery committee, said that he desired to sell lots in the new cemetery as soon as he believed that the town could wait for a time and that it would be just as well to have it built at a later date. Mr. Barrows also suggested that when the lots are sold an

additional sum of \$25 for some and \$50 for others be added to defray the expense of perpetual care. The suggestion was received with favor by all present. The opinion prevailed that it would not be long before there would be sufficient revenue to enable the keeping of two men at work on the grounds all the time.

Attachment Served on Adam Gajewski.  
Adam Gajewski, who in June bought out the liquor business conducted by Fred Gilbert at 88 Main street, was served with a writ of attachment Friday by a constable from New Haven in a suit for \$100 damages. The case is returnable before the city court in New Haven the last day of the current month. To protect the suit the constable took away two barrels of whiskey from the saloon and stored them. Gajewski claimed that the business belonged to his wife, but this did not deter the constable from performing his duty. Suit was first instituted by the attachment of property belonging to Gajewski in New Haven. The action is the result of a disputed claim of some time standing.

Whist and Tea for New Jersey Guests.  
On Friday, at the Eagle's Nest, the beautiful home of Mr. and Mrs. Donald G. Dixon, on Mountain street, an afternoon tea was given in honor of the Misses Deppeler of New Jersey, who are guests of the city. What was played and a most enjoyable afternoon was passed by those present, who included Miss Hazel Dimmick, Miss Ruth Taylor, Miss Kathleen Fuller and Miss Lucy Buck.

THOMAS F. WAUGH  
Elected Teacher of Chemistry and Biology at High School.

The town school committee held a special meeting Friday evening in the rooms of the board of selectmen for the purpose of filling the vacancy in the teaching force at the Windham high school, caused by the unexpected resignation of Lester S. Parker at the close of last school year. After a brief discussion the application of Thomas F. Waugh of Worcester, Mass., was favorably considered and he was elected for the next fiscal year as teacher of chemistry and biology at a salary of \$750.

Mr. Waugh is highly recommended and is thoroughly qualified for the place. He is 25 years of age, a graduate at the Massachusetts agricultural college, Amherst, Mass., with the degree of B.S., and has also received the same degree from another institution. He has been teaching at Rockland, Me., for two years and has enjoyed exceptional success.

Honest Medicines Versus Fakes.  
President Taft's recent message suggesting an amendment to the pure food and drugs law in its relation to prepared medicines does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines—carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to counteract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons; and it retains today its pre-eminence above all other preparations of its kind. Foley Kidney Pills are equally effective and meritorious. See & Osgood Co.
